

Peace and Stability Operations Training and Education Workshop – PSOTEW

IAPTC Annual Conference – 2022

BIPSOT

The Peace and Stability Operations Training Evaluation Workshop (PSOTEW) should promote a comprehensive approach to Peace and Stability Operations through training and education. The PSOTEW brings together trainers, educators, and practitioners from the U.S. and international governmental/non-governmental organizations, military and civilian peace and stability training centers, and academic institutions to share current challenges and best practices toward improving civilian and military teaming efforts in Peace and Stability Operations.

Joint, Interagency, Inter-government, and Multinational Connectivity

Annual Theme: “Identifying and Implementing Peace and Stabilization training and education best practices”

- **WG1:** Develop a training strategy for Foreign Humanitarian Assistance.
- **WG2:** Preparing Senior Leaders to Succeed in UN Peace Operations.
- **WG3:** Developing a Methodology for Assessing and Countering Transnational Organized Crime.
- **WG4:** Organizing the Generating Function of Security Force Assistance Institutions: Security and Justice, and the implications for Governance, Social, and Economic Institutions.
- **WG5:** Developing a common curriculum to improve interagency planning and collaboration in the area of Stability Operations, with an emphasis on design, level of planning (operational/strategic), ownership, delivery and assessment.
- **WG6:** Pilot Sections of a New Civ-Mil Relations Course.

Topic: Develop a training strategy for Foreign Humanitarian Assistance (FHA)

Purpose: Recent operations, including Operations United Assistance (Ebola Support) and Operation Unified Response (Haiti Earthquake) demonstrated the ad hoc planning and execution of foreign humanitarian assistance. This group will analyze the Ebola Support and Haiti Earthquake relief operations in order to identify lessons learned and gaps in FHA operations. This group will outline procedures to integrate these lessons learned in planning, training and education models. The intent is to outline a training strategy that is focused on disaster preparedness and response.

Objectives: The working group will review the Ebola Support and Haiti Earthquake response and identify the top ten lessons learned. The group will engage in discussion of how to integrate these lessons learned in a training strategy that is focused on disaster planning, training and education models. The objective is to establish an FHA training strategy that is focus on disaster preparedness in order to improve effectiveness and efficiency of timely relief efforts.

Deliverables:

- Outline an FHA training strategy that is focused on both disaster preparedness and disaster response

Topic: Preparing Senior Leaders to Succeed in UN Peace Operations (IAPTC & PKSOI)

Purpose: With the UN High Level Independent Panel Report, the UN Peacebuilding Architecture, 2015 Presidential Memorandum *US Support to UN Peace Operations* and the US Presidential Summit on Peacekeeping, there is political impetus to improve UN Peace Operations. Educating leaders has been identified as a key enabler.

Objectives: The working group will present the current state of education not only from a UN education perspective but also from US perspective on educating its own senior leaders. The ITS global assessment as well as recent initiatives from the IAPTC will be identified.

Deliverables/Output:

- Identify the key competencies for a senior leader in the areas of knowledge, skills, and attributes
- Identify the resources available or required to develop and deliver identified training needs
- Identify the optimal delivery methods
- Identify a community of practice to advance such education

Participants: IAPTC, UN ITS, POTI, Stimson, USIP, ARI, JCISFA, NPS, J7, OSD, State IO/PM
